

Store & Currency Auto Switcher

User Guide

Important Notice

MageWorx reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to MageWorx' terms and conditions of sale supplied at the time of order acknowledgment.

MageWorx warrants performance of its products to the specifications applicable at the time of sale in accordance with MageWorx' standard warranty. Testing and other quality control techniques are used to the extent MageWorx deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

MageWorx assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using MageWorx components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

MageWorx does not warrant or represent that any license, either express or implied, is granted under any MageWorx patent right, copyright, mask work right, or other MageWorx intellectual property rights relating to any combination, machine, or process in which MageWorx products or services are used. Information published by MageWorx regarding third-party products or services does not constitute a license from MageWorx to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from MageWorx under the patents or other intellectual property of MageWorx.

Resale of MageWorx products or services with statements different from or beyond the parameters stated by MageWorx for that product or service voids all express and any implied warranties for the associated MageWorx product or service and is an unfair and deceptive business practice. MageWorx is not responsible or liable for any such statements.

All company and brand products and service names are trademarks or registered trademarks of their respective holders.

Extension Description

Store & Currency Auto Switcher extension will drive your visitors directly to a region targeted Magento store. It detects your visitors geographical locations by IP address and gracefully redirects them to the appropriate Magento store predefined by Admin. Also it will automatically switch store currency for visitor if you are running a multi-currency store.

More over the extension allows Magento store owners to see online visitors and customers IP addresses geographical location to get real-time information about your online visitors and to protect a store from fraudulent orders. Extended IP address information is available for the 'Order View' page and 'Online Customers' grid.

The extension is based on MaxMind Geolocation Technology and uses MaxMind GeoIP database to lookup the information.

Extension Installation

- 1 Log out from Magento Admin panel if you are logged in
- 2 Unpack the contents of the 'extension' folder from the package file purchased from MageWorx to your Magento root folder
- 3 Log into Magento Admin Panel
- 4 If Cache Control is enabled in Magento go to 'System > Cache Management' section, select 'Refresh' under 'All Cache' drop-down menu and press 'Save Cache Settings'
- 5 Now go to 'System > Configuration > MageWorx tab > Extensions & Support' section. If you see 'Store & Currency Auto Switcher' in the list of installed MageWorx extensions you are done.

Extensions & Support

Extensions Information	
Installed MageWorx Extensions	
MageWorx Admin	v1.1.1
Store & Currency Auto Switcher	v1.0.4

Extension Usage

- 1 **Extension settings.** The extension setting can be changed in System > Configuration > MAGEWORX section > Customers. Here they are:

Customers

GeoIP Location	
Enable Store Auto Switcher	<input type="text" value="Yes"/>
Enable Currency Auto Switcher	<input type="text" value="Yes"/>
Force Store View for Geo Location	<input type="text" value="No"/> <small>If set to "No", customers can switch store views manually</small>
Store Auto Switcher Scope	<input type="text" value="Global"/> <small>If set to "Website" the switcher works within one website only If set to "Global" the switcher works between websites</small>
Disable Key	<input type="text" value="off"/> <small>To disable Store Auto Switcher for administrative purposes use this key, e.g. http://www.example.com/?_store_switcher_=key</small>
Exception URLs	<input type="text" value="/paypal/*"/> <small>Exception URLs are relative URLs to your Store URL used mainly to disable Store Auto Switcher for payment processing gateways. Enter one URL per line. ^ means anything Example: /paypal/* /twocheckout/*</small>

Database Type	<input type="text" value="GeoIP Country"/>
Database Path	<input type="text" value="lib/GeoIP/GeoIP.dat"/> <small>Path to GeoIP database file. Can be either relative to Magento root folder or absolute to your file system</small>
Auto Switch Billing Country	<input type="text" value="Yes"/>
Auto Switch Shipping Country	<input type="text" value="Yes"/>
Auto Switch Address Country	<input type="text" value="Yes"/>
IP List	<div style="border: 1px solid #ccc; height: 100px; width: 100%;"></div> <p><small>List of IPs for which Store Switcher should be disabled</small></p> <p>Example: 123.123.123.123 123.123.*.*</p>
User Agent List	<div style="border: 1px solid #ccc; height: 100px; width: 100%;"><p>Googlebot*</p></div> <p><small>List of User Agents for which Store Switcher should be disabled. Enter one User Agent per line</small></p>

- **Enable Store Auto Switcher** - enable/disable automatic switching between stores based on customers' IPs
- **Enable Currency Auto Switcher** - enable/disable automatic switching between currencies based on customers' IPs

-
- **Force Store View for Geo Location** - if set to "No", customers will be able to change store views manually from front-end.
 - **Store Auto Switcher Scope** - if set to "Website", the switcher will work only within one website, i.e. it will switch store views
 - **Disable Key** - this is for admin purposes. Add this key to the URL like in the example and this won't switch between store views
 - **Exception URLs** - URLs for which store switcher won't work
 - **Database Type** - type of database. Should be "GeoIP Country"
 - **Database Path** - paths to GeoIP database. Should be "lib/GeoIP/GeoIP.dat"
 - **Auto Switch Billing Country** - enable auto switching of billing country on the checkout based on customers' IPs
 - **Auto Switch Shipping Country** - enable auto switching of shipping country on the checkout based on customers' IPs
 - **Auto Switch Address Country** - enable auto switching of address country on the checkout based on customers' IPs
 - **IP List** - the list of IP addresses for which store switcher should not work
 - **User Agent List** - the list of user agents for which store switcher should not work - this is useful so that not to redirect search engines spiders and keep your site indexed properly.

To specify what country should be assigned to each store view go to System > Manage Stores > edit any store view > choose necessary countries in "Country" field. Please note that the same country should not be in different store views and you have to specify the country for your default store view.

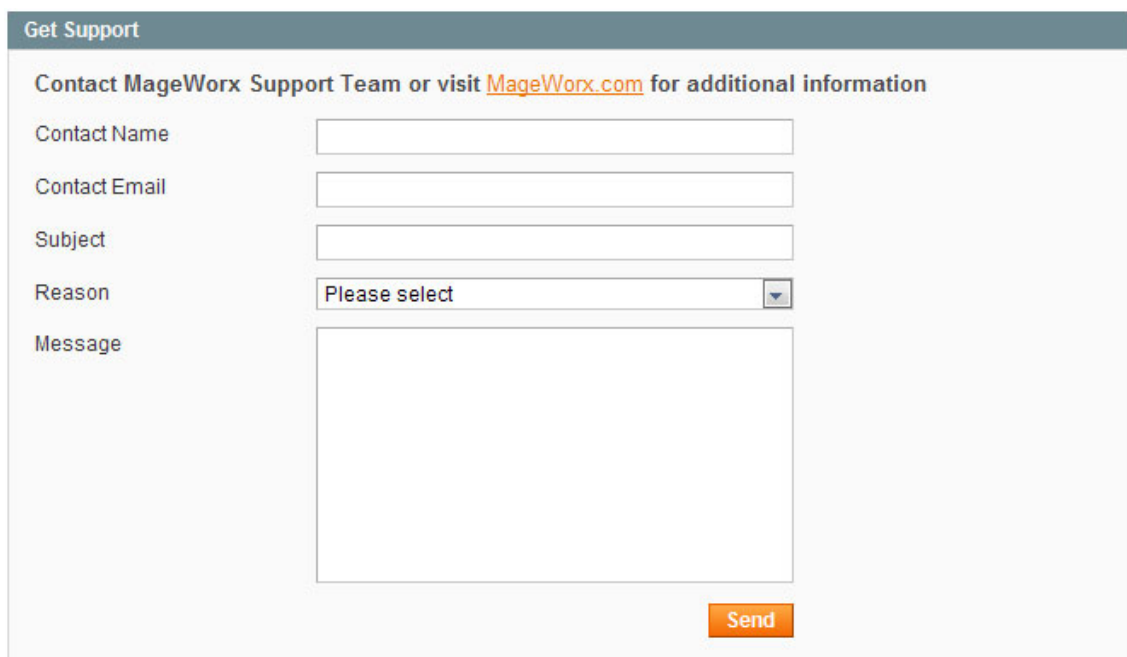

The currency switcher automatically switches between available allowed currencies in Magento. Please note that you need to specify currency rates in System > Manage Currency Rates to enable switcher.

Support
